Dear supporter of Ammalife,

First and foremost, thank you.

For almost 20 years, Ammalife has worked to save the lives of mothers facing preventable complications during pregnancy and childbirth. None of this work would have been possible without the generosity of people like you.

Although Ammalife has always been a small charity with a small team, our impact has reached far beyond our size. Through research, education, partnerships and practical projects, particularly in countries such as Malawi, your support has helped us make a real difference to the lives of mothers and their families.

As we look to the future, we want to make sure that every pound entrusted to Ammalife can continue to make the greatest possible difference.

Making the best use of funds entrusted to us

Over the years, supporters have generously donated to a number of specific Ammalife projects and appeals. In some cases, those projects have now been completed but a small balance of funds remain.

There are several reasons why this can happen. A project may have achieved everything it set out to do for less than originally anticipated; a programme may have come to an end with money remaining after the final accounts and audit; circumstances may have changed; or our partnerships with organisations on the ground may have changed.

We would therefore like, where appropriate and subject to the charity rules that apply, to make these remaining historic funds available for Ammalife's wider maternal health work.

The money would continue to be used for the purpose at the heart of Ammalife: preventing maternal deaths and complications and improving the health and care of mothers, particularly in communities where the need is greatest.

Giving Ammalife greater flexibility would allow us to direct resources to where they can have the greatest impact rather than leaving money tied indefinitely to projects which have already ended or where the original need has been met.

The historic programmes concerned include:

Project	**Description**	**Amount**
On a roll	Hygiene project - Malawi	£10
Infection	Sepsis treatment package	£7,045
Infection	Malawi sepsis equipment	£4,579
Postpartum haemorrhage	Anti shock garments and tranexamic acid to treat bleeding -Pakistan, Tanzania, Malawi and Nigeria	£5,976
Emergency life saving kits and transportation	Man with a van – Havelian, Pakistan	£2,496

If you would like to speak to us about your donation

We recognise and respect the intentions with which every donation was made.

If you believe that you donated specifically to one of the programmes above and would like your donation to remain connected with that area of our work, please contact us by **2 December 2026** at info@ammalife.org

If possible, please let us know the approximate date and amount of your donation and the project you supported so that we can identify it in our records.

After 2 December, and subject to the appropriate charity law requirements and any necessary Charity Commission approval, the Trustees will begin the process of making eligible remaining funds available for Ammalife's wider maternal health work.

Thank you again for everything you have done for Ammalife over the years. Your generosity has allowed a small charity to achieve far more than would otherwise have been possible.

But the need remains enormous. More than 700 women around the world still die every day from preventable causes related to pregnancy and childbirth — almost one woman every two minutes.

We hope you will continue to stand with Ammalife as we work to change that.

With our warmest thanks,

The Trustees of Ammalife
